Business Capability Model

The Insurance Business Capability Model defines **16 Level-1 (L1) domains** and **36 Level-2 (L2) capabilities** aligned to the [ACORD Capability Model](#) (codes IN001–IN036). Each capability maps to one or more regulatory standards: Solvency II (SCR, MCR, ORSA, TP), NAIC (SSAP, IRIS, SERFF), IFRS 17 (paragraphs 16–C8), APRA (GPS 001, LRS 750.0), BCBS 239, GDPR, NIST 800-53, and DORA.

The model serves as the organising framework for the 16 analytics dashboards defined in this catalogue. Each dashboard monitors KPIs that directly assess the health, efficiency, and regulatory compliance of its corresponding capabilities.

L1 Domain Decomposition

#	L1 Domain	Acronym	ACORD Codes	Regulatory Standards
1	Product Lifecycle Management	PLM	IN001–IN004	NAIC SERFF, NAIC SSAP 53/61, IFRS 17.55
2	Distribution & Channel Management	DCM	IN005–IN008	NAIC Producer Licensing, NAIC SSAP 54
3	Underwriting	UW	IN009–IN012	Solvency II UW Risk 1.2, Solvency II Risk Concentration, NAIC IRIS 7
4	Policy Administration	PA	IN013–IN015	—
5	Claims Management	CM	IN016–IN019	Solvency II Premium Risk, Solvency II TP 2.2, NAIC SSAP 55, NAIC Claims Handling
6	Reinsurance	RI	IN020–IN022	Solvency II RI Risk 2.1/2.3, Solvency II Counterparty 3.1, Solvency II Cat Risk, IFRS 17.62
7	Actuarial & Pricing	ACT	IN023–IN025	Solvency II Pricing, Solvency II TP 2.2/2.3/2.5, Solvency II Cat Risk 4.1, IFRS 17.37, NAIC SSAP 55
8	Billing & Collections	BIL	IN031	—
9	Customer Management	CUS	IN026–IN027	NAIC Fair Treatment, NAIC Consumer Complaints
10	Risk Management & Compliance	RMC	IN028–IN030	Solvency II SCR 3.1, Solvency II MCR 4.1, Solvency II ORSA 5.1–5.3, Solvency II OpRisk 6.1, IAIS ICPS, NAIC Market Conduct
11	IFRS 17 Accounting	IFR	IN032	IFRS 17.16–24, 17.37, 17.43–46, 17.53–58, 17.62–65, 17.80–88, 17.C1–C8
12	Regulatory Reporting	RRE	IN029	Solvency II QRT, NAIC SSAP, APRA GPS 001, APRA LRS 750.0
13	Data & Analytics	DAN	IN033	BCBS 239, Solvency II Data Quality
14	Information Security & Cybersecurity	ISC	IN034	GDPR Art 33–34, NIST 800–53/800–61, CIS Controls, DORA, SOX
15	Enterprise Services	ENT	IN035	—
16	IT & Digital Platforms	ITD	IN036	—

ACORD L2 Capability Detail (IN001–IN036)

ACORD	L2 Capability	L1 Domain	Description
IN001	Product Concept & Design	Product Lifecycle Management	Ideation, market research, feasibility assessment, coverage design.
IN002	Rate & Form Filing	Product Lifecycle Management	Actuarial rate development, regulatory filing, approval tracking.
IN003	Product Launch	Product Lifecycle Management	Market launch, distribution activation, training, documentation.
IN004	Product Performance Monitoring	Product Lifecycle Management	In-force tracking, LR/ER/combined ratio, profitability analysis.
IN005	Agency & Producer Onboarding	Distribution & Channel Management	Producer contracting, licensing verification, appointment, training.
IN006	Commission Management	Distribution & Channel Management	Commission schedule setup, calculation, disbursement, reconciliation.
IN007	Producer Performance	Distribution & Channel Management	Scorecards, premium tracking, loss ratio monitoring, tier management.
IN008	Distribution Analytics	Distribution & Channel Management	Channel mix, CAC, conversion funnel, cost-to-serve, optimisation.
IN009	Risk Assessment & Scoring	Underwriting	Submission intake, data enrichment, risk scoring, predictive models.
IN010	Underwriting Decision	Underwriting	Referral workflow, authority limits, declination, counter-offer.
IN011	Quote Generation	Underwriting	Rating engine execution, premium calculation, discount application.
IN012	Bind & Evidence	Underwriting	Policy binding, evidence of insurance issuance, downstream notification.
IN013	Policy Issuance	Policy Administration	Policy schedule creation, document generation, welcome pack.
IN014	Mid-Term Adjustments	Policy Administration	Endorsements, cancellations, reinstatements, coverage changes.
IN015	Renewal Processing	Policy Administration	Renewal offer generation, premium adjustment, retention tracking.
IN016	First Notice of Loss	Claims Management	FNOL intake, triage, coverage verification, claim file creation.
IN017	Claims Investigation	Claims Management	Evidence gathering, statement collection, expert engagement.
IN018	Claims Adjudication	Claims Management	Liability assessment, coverage determination, settlement authority.
IN019	Payment & Settlement	Claims Management	Payment execution, reserve adjustment, closure, recovery referral.
IN020	Treaty Administration	Reinsurance	Treaty setup, contract management, limits, retention scheduling.
IN021	Facultative Placement	Reinsurance	Risk-by-risk cession, quote, placement, documentation.
IN022	Retrocession Management	Reinsurance	Retrocession structure, placement, monitoring, recoveries.
IN023	Pricing Model Development	Actuarial & Pricing	Model design, calibration, validation, regulatory approval.
IN024	Rate Monitoring	Actuarial & Pricing	Rate adequacy tracking, competitor analysis, experience monitoring.
IN025	Reserve Estimation	Actuarial & Pricing	Chain-ladder, BF, IBNR estimation, reserve adequacy testing.
IN026	Customer Onboarding & KYC	Customer Management	Identity verification, AML screening, policy setup, welcome.
IN027	Customer Relationship Management	Customer Management	Interaction history, 360 view, cross-sell, retention, complaints.
IN028	Enterprise Risk Management	Risk Management & Compliance	Risk framework, risk appetite, KRI monitoring, ORSA.
IN029	Regulatory Compliance	Risk Management & Compliance	Compliance monitoring, regulatory change, conduct risk.
IN030	Capital Adequacy & ORSA	Risk Management & Compliance	SCR/MCR calculation, capital planning, stress testing.
IN031	Billing & Collections	Billing & Collections	Invoice generation, payment processing, arrears, refunds.
IN032	IFRS 17 Accounting	IFRS 17 Accounting	CSM, RA, PAA/GMM/VFA, revenue recognition, disclosure.
IN033	Data & Analytics	Data & Analytics	Data governance, MDM, BI dashboards, ML models, DQ management.
IN034	Information Security	Information Security & Cybersecurity	IAM, SOC, vulnerability, BCM, third-party risk.
IN035	Enterprise Services	Enterprise Services	HR, procurement, finance, legal, facilities management.

ACORD	L2 Capability	L1 Domain	Description
IN036	IT & Digital Platforms	IT & Digital Platforms	API platform, cloud infra, DevOps, ITSM, cost management.

Capability Model Diagram

Regulatory Standards Mapping

Standard	Scope	Applicable L1 Domains
Solvency II – SCR (Art. 100–127)	Capital adequacy, risk quantification	Risk Management & Compliance, Actuarial & Pricing
Solvency II – MCR (Art. 128–131)	Minimum capital floor	Risk Management & Compliance
Solvency II – ORSA (Art. 45)	Own risk and solvency assessment	Risk Management & Compliance
Solvency II – Technical Provisions (Art. 76–86)	Best estimate, risk margin, TP adequacy	Actuarial & Pricing, Claims Management
Solvency II – UW Risk (1.2)	Premium and reserve risk	Underwriting, Actuarial & Pricing
Solvency II – Cat Risk (4.1)	Natural and man-made catastrophe risk	Actuarial & Pricing, Reinsurance
Solvency II – RI Risk (2.1/2.3)	Reinsurance counterparty and coverage risk	Reinsurance
Solvency II – OpRisk (6.1)	Operational loss events	Risk Management & Compliance
NAIC SSAP 53	Property and casualty loss reserves	Claims Management, Actuarial & Pricing
NAIC SSAP 54/61	Reinsurance, expense accounting	Reinsurance, Product Lifecycle
NAIC SSAP 55	Loss reserve discounting	Claims Management, Actuarial & Pricing
NAIC IRIS Ratios	Insurance regulatory information system	Product Lifecycle, Underwriting
NAIC SERFF	Rate and form filing system	Product Lifecycle
NAIC Producer Licensing	Agent and broker licensing	Distribution & Channel Management
NAIC Market Conduct	Fair treatment of policyholders	Risk Management & Compliance, Customer Management
IFRS 17 (Full standard)	Insurance contracts accounting	IFRS 17 Accounting, Product Lifecycle
APRA GPS 001	Prudential framework for insurers	Regulatory Reporting, Risk Management
APRA LRS 750.0	Life insurance reporting standards	Regulatory Reporting
BCBS 239	Risk data aggregation and reporting	Data & Analytics, Risk Management
GDPR Art. 33–34	Personal data breach notification	Information Security & Cybersecurity
NIST SP 800-53	Security and privacy controls	Information Security & Cybersecurity
DORA (EU 2022/2554)	Digital operational resilience	Information Security & Cybersecurity, IT & Digital Platforms
IAIS ICPs	Insurance core principles	Risk Management & Compliance

Dashboard 01: Product Lifecycle Performance Dashboard

ACORD: IN001 • IN002 • IN003 • IN004
Business Question: Which products are underperforming and why?

Owner: Head of Product Management

Tracks product pipeline from concept through filing, launch, and in-force performance. Enables product managers to compare loss/expense/combined ratios across products, monitor rate filing progress, and identify underperforming coverages before they erode margin.

KPIs

KPI	Formula / Source	Chart	Source System	Refresh	Reg Ref
Products in Pipeline	Count of products in concept/design/filing	Count	Duck Creek PLM	Weekly	NAIC Product Filing
Time to Market	Avg days from concept to launch	Bar (trend)	Duck Creek PLM	Monthly	—
In-Force Policies	Total active policies by product	Count	Guidewire PolicyCenter	Daily	—
Premium Written (GWP)	Gross premium written by product line	Bar (stacked)	Duck Creek Rating	Monthly	IFRS 17.55(a)
Loss Ratio (LR)	Incurred Claims / Earned Premium	Line + Gauge	Guidewire ClaimCenter	Monthly	NAIC SSAP 53; IFRS 17.55(c)
Expense Ratio (ER)	Acquisition + Admin Expenses / EP	Line + Gauge	SAP GL	Monthly	NAIC SSAP 61
Combined Ratio	LR + ER	Gauge	BI (Tableau)	Monthly	NAIC IRIS 4a
Product Profitability	Underwriting result by product	Bar (waterfall)	Snowflake DW	Monthly	IFRS 17.55(d)
Rate Filing Approval %	Filed rates approved vs pending	Donut	Duck Creek Rating	Monthly	NAIC SERFF
Coverage Utilization	% of policies with optional coverages attached	Bar	Guidewire PolicyCenter	Quarterly	—
Retention by Product	% of renewable policies retained	Line	Guidewire PolicyCenter	Monthly	—
Benchmark Comparison	LR/ER vs industry benchmark by product line	Table (heatmap)	BI (Tableau)	Quarterly	NAIC IRIS

Filters & Drill-Down

Filters: Product Line, Region, Distribution Channel, Time Period

Drill-Down Path: Product > Coverage > Policy > Claim

Data Flow Diagram

Dashboard 02: Distribution & Channel Analytics Dashboard

ACORD: IN005 • IN006 • IN007 • IN008

Business Question: Which channels and producers deliver the best ROI?

Owner: Head of Distribution

Monitors channel performance (agents, brokers, direct, bancassurance, aggregators) on premium volume, acquisition cost, conversion, retention, and cross-sell. Includes producer scorecards with traffic-light indicators and peer percentile ranking.

KPIs

KPI	Formula / Source	Chart	Source System	Refresh	Reg Ref
Premium by Channel	GWP split by channel	Pie + Bar	Guidewire PolicyCenter	Monthly	—
Customer Acquisition Cost	Total channel cost / new policies	Bar (by channel)	SAP GL	Monthly	—
Conversion Rate	Quotes accepted / quotes issued by channel	Line + Gauge	Duck Creek Rating	Monthly	—
Retention Rate	Policies renewed / policies expiring by channel	Line	Guidewire PolicyCenter	Monthly	—
Active Producer Count	Producers with >=1 policy in period	Count	Guidewire PolicyCenter	Monthly	NAIC Producer Licensing
Commission Ratio	Commission paid / premium written by channel	Bar	Duck Creek Billing	Monthly	—
Cross-Sell Ratio	% of multi-policy households by channel	Bar	CRM (Salesforce)	Monthly	—
Cost-to-Serve	Service cost per policy by channel	Bar	SAP GL	Monthly	—
Producer Scorecard	KPI vs target with traffic-light per producer	Table (heatmap)	BI (Tableau)	Monthly	—
Channel Profitability	Channel P&L: premium - commissions - expenses	Waterfall	Snowflake DW	Monthly	IFRS 17.55(d)
Lead Conversion Funnel	Lead > quote > bind by source	Funnel	Marketo + CRM	Weekly	—
Agency Contingent Pay	Profit-sharing % vs loss-ratio threshold	Gauge	Duck Creek Billing	Annual	NAIC SSAP 54

Filters & Drill-Down

Filters: Channel Type, Region, Producer Tier, Time Period

Drill-Down Path: Channel > Producer > Policy > Commission

Data Flow Diagram

Dashboard 03: Underwriting Dashboard

ACORD: IN009 • IN010 • IN011 • IN012

Business Question: Is underwriting risk selection improving or deteriorating?

Owner: Chief Underwriting Officer

Provides real-time visibility into new business pipeline, risk selection quality, quote-to-bind conversion, referral bottlenecks, and portfolio risk concentration. Helps underwriters balance growth against risk appetite.

KPIs

KPI	Formula / Source	Chart	Source System	Refresh	Reg Ref
Submission Volume	New business submissions received	Count (trend)	Origami Risk UW	Daily	—
Quote-to-Bind Ratio	Policies bound / quotes issued	Gauge	Duck Creek Rating	Daily	—
Average Premium	Mean premium per bound policy	Line	Duck Creek Rating	Monthly	—
Risk Score Distribution	Count of risks by score decile	Histogram	Origami Risk UW	Monthly	Solvency II UW Risk 1.2
Referral Rate	% of submissions requiring UW referral	Line	Origami Risk UW	Monthly	—
TAT (Submission > Quote)	Avg hours from submission to quote issued	Bar	Origami Risk UW	Weekly	—
TAT (Quote > Bind)	Avg days from quote to policy bound	Bar	Guidewire PolicyCenter	Weekly	—
Portfolio Concentration	% of premium in top 3 risk categories	Donut	BI (Tableau)	Monthly	Solvency II Risk Concentration
Declination Rate	Quotes declined / submissions	Line	Origami Risk UW	Monthly	—
UW Authority Utilization	% decided within UW authority limit	Gauge	Origami Risk UW	Monthly	—
Reinsurance Impact	Premium ceded vs retained by risk band	Bar (stacked)	Sapiens Re	Monthly	Solvency II RI Risk
New Business LR	Incurred loss ratio on policies <=12 months	Line	Guidewire ClaimCenter	Quarterly	NAIC IRIS 7

Filters & Drill-Down

Filters: Product Line, Region, UW Team, Risk Band

Drill-Down Path: Submission > Quote > Policy > Claims Experience

Data Flow Diagram

Dashboard 04: Policy Administration Dashboard

ACORD: IN013 • IN014 • IN015

Business Question: How healthy is the in-force book and policy servicing?

Owner: Head of Policy Services

Provides a complete view of the policy lifecycle: new business, in-force book, renewals, mid-term adjustments, cancellations, and endorsements. Tracks service levels including TAT for endorsements and policy inquiry response.

KPIs

KPI	Formula / Source	Chart	Source System	Refresh	Reg Ref
In-Force Policies	Total active policies	Count (trend)	Guidewire PolicyCenter	Daily	—
New Business Count	Policies issued (first-time) this period	Bar	Guidewire PolicyCenter	Daily	—
Renewal Rate	Policies renewed / renewals offered	Gauge + Line	Guidewire PolicyCenter	Monthly	—
Mid-Term Adjustments	Endorsements processed this period	Bar	Guidewire PolicyCenter	Monthly	—
Cancellation Rate	Policies cancelled / in-force count	Line	Guidewire PolicyCenter	Monthly	—
Cancellation Reason Mix	% by reason (non-pay, UW, fraud, request)	Pie	Guidewire PolicyCenter	Monthly	—
Endorsement TAT	Avg hours from request to endorsement issued	Bar	Guidewire PolicyCenter	Weekly	—
Policy Inquiry Volume	Customer/producer inquiries received	Count (trend)	CRM (Salesforce)	Weekly	—
Average Policy Tenure	Mean days policy has been in-force	Line	Guidewire PolicyCenter	Monthly	—
NPS (Policy Servicing)	Net promoter score from servicing survey	Gauge	CRM (Salesforce)	Quarterly	—
Auto-Issue %	Policies issued without manual intervention	Gauge	Guidewire PolicyCenter	Monthly	—
Document Generation	Policy documents generated (schedules, COIs)	Count	M-Files	Monthly	—

Filters & Drill-Down

Filters: Product Line, Region, Coverage Type, Time Period

Drill-Down Path: Policy > Endorsement > Document > Inquiry

Data Flow Diagram

Dashboard 05: Claims Operations Dashboard

ACORD: IN016 • IN017 • IN018 • IN019

Business Question: Are claims being handled efficiently, fairly, and within reserve?

Owner: Chief Claims Officer

End-to-end claims analytics covering FNOL intake, investigation, adjudication, payment, litigation, and subrogation. Monitors leakage, cycle times, adjuster workload, and reserve adequacy. Alerts when claims exceed authority or outlier severity thresholds.

KPIs

KPI	Formula / Source	Chart	Source System	Refresh	Reg Ref
FNOL Volume	First notices of loss received	Count (trend)	Guidewire ClaimCenter	Daily	NAIC Claims Handling
Open Claims Count	Claims currently open (by status)	Count	Guidewire ClaimCenter	Daily	—
Average Severity	Total paid / closed claims	Line + Bar	Guidewire ClaimCenter	Monthly	—
Claims Frequency	Claim count / in-force policies	Line	Guidewire ClaimCenter	Monthly	Solvency II Premium Risk
Leakage Rate	Indemnity paid / expected reserve (deviation)	Gauge	Guidewire ClaimCenter	Monthly	—
Cycle Time (FNOL > Payment)	Avg days from FNOL to first payment	Bar	Guidewire ClaimCenter	Weekly	NAIC Timely Claims Handling
Cycle Time (FNOL > Close)	Avg days from FNOL to claim closure	Bar	Guidewire ClaimCenter	Weekly	—
Reserve Adequacy	Case reserve adequacy ratio	Line	SAS Actuarial	Monthly	Solvency II TP 2.2; NAIC SSAP 55
Subrogation Recovery Rate	Amount recovered / amount recoverable	Gauge	Guidewire ClaimCenter	Monthly	—
Litigation Rate	% of claims with active litigation	Line	Guidewire ClaimCenter	Monthly	—
Adjuster Workload	Open claims per adjuster	Bar	Guidewire ClaimCenter	Weekly	—
Claims NPS	Customer satisfaction survey post-settlement	Gauge	CRM (Salesforce)	Quarterly	NAIC Fair Claims Practices

Filters & Drill-Down

Filters: Line of Business, Claim Status, Adjuster Team, Time Period

Drill-Down Path: Claim > Coverage > Payment > Litigation > Recovery

Data Flow Diagram

Dashboard 06: Reinsurance Dashboard

ACORD: IN020 • IN021 • IN022

Business Question: Are our reinsurance programmes adequately covering our risk exposure?

Owner: Head of Reinsurance

Monitors treaty and facultative placements, premium ceded, recoveries, bordereaux accuracy and timeliness, counterparty credit risk, and retrocession coverage. Provides early warning if treaty capacity is approaching exhaustion.

KPIs

KPI	Formula / Source	Chart	Source System	Refresh	Reg Ref
Treaty Capacity Utilisation	% of treaty limit consumed by claims	Gauge + Bar	Sapiens Re	Monthly	Solvency II RI Risk 2.1
Premium Ceded Ratio	Ceded premium / gross written premium	Line	Sapiens Re + PAS	Quarterly	IFRS 17.62; NAIC SSAP 61
Recoveries Received	Reinsurance recoveries collected this period	Bar	Sapiens Re	Monthly	—
Recovery Cycle Time	Avg days from cession notification to cash received	Bar	Sapiens Re	Monthly	—
Bordereaux Accuracy	% of bordereaux records error-free on submission	Gauge	Sapiens Re	Monthly	—
Bordereaux Timeliness	% submitted within contractual deadline	Gauge	Sapiens Re	Monthly	—
RI Credit Risk	Exposure weighted by reinsurer credit rating	Bar	Sapiens Re + Moody's	Quarterly	Solvency II Counterparty Risk 3.1
Facultative Placement	Number of facultative placements requested/placed	Count (bar)	Sapiens Re	Monthly	—
Retrocession Coverage	% of ceded risk covered by retrocession	Gauge	Sapiens Re	Quarterly	Solvency II RI Risk 2.3
Catastrophe RI Cover	Per-occurrence limit vs modelled PML	Gauge	Moody's RMS	Annual	Solvency II Cat Risk
Treaty Expiry Calendar	Upcoming treaty renewals in next 6 months	Timeline table	Sapiens Re	Monthly	—
RI Programme ROE	Return on equity of RI programme	Line	Snowflake DW	Annual	—

Filters & Drill-Down

Filters: Treaty Type, Reinsurer, Line of Business, Year

Drill-Down Path: Treaty > Cession > Claim Recovery > Reinsurer

Data Flow Diagram

Dashboard 07: Actuarial & Pricing Dashboard

ACORD: IN023 • IN024 • IN025

Business Question: Are our rates adequate and reserves sufficient?

Owner: Chief Actuary

Aggregates pricing, rate monitoring, reserving, and catastrophe modelling analytics. Enables the actuarial team to assess rate adequacy, track IBNR emergence, validate reserve assumptions, and understand catastrophe exposure. Links pricing decisions to actual loss experience.

KPIs

KPI	Formula / Source	Chart	Source System	Refresh	Reg Ref
Rate Adequacy	Indicated rate change vs filed (by product)	Gauge + Table	Duck Creek Rating	Monthly	NAIC SERFF; Solvency II Pricing
Actual vs Expected LR	Incurred LR vs pricing assumption LR	Line (pair)	SAS + DW	Monthly	Solvency II TP 2.2
IBNR Ratio	IBNR reserve / total reserve	Line	SAS Actuarial	Monthly	IFRS 17.37; NAIC SSAP 55
Reserve Adequacy Ratio	Best estimate vs central estimate	Gauge	SAS Actuarial	Quarterly	Solvency II TP 2.3
Chain-Ladder IBNR	IBNR via chain-ladder method	Line (development)	SAS Actuarial	Quarterly	—
Bornhuetter-Ferguson IBNR	IBNR via BF method for immature periods	Line (development)	SAS Actuarial	Quarterly	—
Probable Maximum Loss	OEP 100yr / AEP 100yr / AAL	Bar (by peril)	Moody's RMS	Quarterly	Solvency II Cat Risk
PML vs Treaty Cover	PML as % of per-occurrence treaty limit	Gauge	Moody's RMS	Annual	Solvency II Cat Risk 4.1
Credibility-Weighted LR	LR weighted by credibility factor	Line	SAS Actuarial	Monthly	—
Loss Development Pattern	Paid + incurred loss triangles	Line (multi-series)	SAS Actuarial	Quarterly	IFRS 17.37; NAIC SSAP 55
Expense Load	Expense provision as % of gross premium	Bar	SAP GL	Monthly	—
Model Stability	Variance of reserve estimates across quarterly runs	Bar (variance)	SAS Actuarial	Quarterly	Solvency II TP 2.5

Filters & Drill-Down

Filters: Product Line, Accident Year, Development Period, Peril

Drill-Down Path: Product > Accident Year > Reserve Method > Model Run

Data Flow Diagram

Dashboard 08: Billing & Collections Dashboard

ACORD: IN031
Business Question: Are premiums being collected efficiently and on time?
Owner: Head of Finance Operations

Monitors premium billing, payment processing, accounts receivable aging, collection effectiveness, refunds, and commission disbursement. Flags overdue accounts and tracks DSO improvements.

KPIs

KPI	Formula / Source	Chart	Source System	Refresh	Reg Ref
Premium Billed	Total premium billed this period	Bar	Duck Creek Billing	Monthly	—
Premium Collected	Cash received against billed premium	Bar	Duck Creek Billing	Monthly	—
Collection Rate	Collected / billed (%)	Gauge	Duck Creek Billing	Monthly	—
Aging (0-30 days)	Receivables 0-30 days overdue	Bar (stacked)	Duck Creek Billing	Weekly	—
Aging (31-60 days)	Receivables 31-60 days overdue	Bar (stacked)	Duck Creek Billing	Weekly	—
Aging (61-90 days)	Receivables 61-90 days overdue	Bar (stacked)	Duck Creek Billing	Weekly	—
Aging (90+ days)	Receivables >90 days overdue	Bar (stacked)	Duck Creek Billing	Weekly	—
DSO	Days sales outstanding to collect premium	Line	BI (Tableau)	Monthly	—
Payment Method Mix	% by method (CC, bank transfer, direct debit, cheque)	Pie	Stripe + Billing	Monthly	—
Failed Payment Rate	Auto-pay attempts failed / total attempts	Line	Stripe	Monthly	—
Refund Volume	Premium refunds processed this period	Count (bar)	Duck Creek Billing	Monthly	—
Commission Payable	Commission due to producers this period	Bar	Duck Creek Billing	Monthly	—

Filters & Drill-Down

Filters: Product Line, Payment Method, Aging Bucket, Time Period
Drill-Down Path: Billing Account > Policy > Payment > Refund

Data Flow Diagram

Dashboard 09: Customer Analytics Dashboard

ACORD: IN026 • IN027

Business Question: How satisfied are our customers and what drives loyalty?

Owner: Chief Customer Officer

360-degree view of customer health including NPS, CSAT, customer lifetime value, retention and loyalty programme effectiveness, cross-sell penetration, complaints trends, and service experience metrics. Segments customers by behaviour, value, and risk profile.

KPIs

KPI	Formula / Source	Chart	Source System	Refresh	Reg Ref
Net Promoter Score	Promoters - Detractors (scale -100 to +100)	Gauge + Line	CRM (Salesforce)	Quarterly	—
Customer Satisfaction	Avg satisfaction score (1-5) post-interaction	Gauge	CRM (Salesforce)	Monthly	NAIC Fair Treatment
Customer Lifetime Value	Present value of future profit from customer	Bar (segment)	BI (Tableau)	Monthly	—
Retention Rate	Customers retained / customers at risk	Gauge + Line	Guidewire PolicyCenter	Monthly	—
Cross-Sell Penetration	% customers with > 1 policy	Bar (trend)	CRM (Salesforce)	Monthly	—
Complaint Volume	Complaints received by category	Count (bar)	CRM (Salesforce)	Monthly	NAIC Consumer Complaints
First-Contact Resolution	Issues resolved in first interaction	Gauge	CRM (Salesforce)	Monthly	—
Average Response Time	Avg hours to respond to customer enquiry	Line	CRM (Salesforce)	Weekly	—
Customer Segment Mix	% by value tier (platinum/gold/silver/bronze)	Pie	BI (Tableau)	Monthly	—
Loyalty Programme Engagement	Active members / eligible customers	Gauge	CRM (Salesforce)	Monthly	—
Cost-to-Serve per Customer	Service cost / customer count by segment	Bar	SAP GL	Monthly	—
Churn Prediction Score	Avg churn probability for at-risk population	Gauge	H2O.ai ML Model	Monthly	—

Filters & Drill-Down

Filters: Customer Segment, Product Line, Channel, Time Period

Drill-Down Path: Segment > Customer > Policy > Interaction

Data Flow Diagram

Dashboard 10: Risk & Compliance Dashboard

ACORD: IN028 • IN029 • IN030

Business Question: Are we operating within risk appetite and meeting regulatory obligations?

Owner: Chief Risk Officer

Consolidates enterprise risk management, capital adequacy (SCR/MCR), operational risk incidents, compliance monitoring, internal audit findings, and conduct risk metrics. Provides a single pane of glass for the CRO and board risk committee.

KPIs

KPI	Formula / Source	Chart	Source System	Refresh	Reg Ref
SCR Coverage Ratio	Eligible own funds / SCR	Gauge + Line	Moody's Capital	Quarterly	Solvency II SCR 3.1
MCR Coverage Ratio	Eligible own funds / MCR	Gauge	Moody's Capital	Quarterly	Solvency II MCR 4.1
KRI Dashboard	15 green, 3 amber, 2 red indicators	Traffic-light heatmap	Moody's Risk	Monthly	Solvency II ORSA 5.1
Risk Appetite Utilisation	Risk exposure / risk appetite limit	Bullet chart	Moody's Risk	Monthly	Solvency II ORSA 5.2
Operational Risk Incidents	Operational loss events by category	Bar	ServiceNow GRC	Monthly	Solvency II OpRisk 6.1
Compliance Breaches	Regulatory or internal policy breaches	Count (trend)	ServiceNow GRC	Monthly	—
Internal Audit Findings	Open findings by severity	Bar (stacked)	ServiceNow GRC	Monthly	IAIS ICPs
Open Regulatory Queries	Outstanding regulatory information requests	Count	AxiomSL	Weekly	—
RCSA Completion	Risk and control self-assessment completion by BU	Gauge	ServiceNow GRC	Quarterly	—
Conduct Risk Score	Fair value assessment score by product	Bar	Compliance System	Monthly	NAIC Market Conduct
Capital Allocation	Capital allocated by risk type	Waterfall	Moody's Capital	Quarterly	Solvency II SCR 3.2
Board Risk Summary	CRO summary for board risk committee	Table (executive)	BI (Tableau)	Quarterly	Solvency II ORSA 5.3

Filters & Drill-Down

Filters: Risk Category, Business Unit, KRI Status, Time Period

Drill-Down Path: Risk Category > KRI > Incident > Remediation

Data Flow Diagram

Dashboard 11: IFRS 17 Accounting Dashboard

ACORD: IN032
Business Question: What is the IFRS 17 profit profile and CSM emergence pattern?
Owner: CFO / IFRS 17 Programme Director

Provides full visibility into IFRS 17 financial metrics: CSM balance and amortisation, risk adjustment, insurance revenue recognition by PAA/GMM/VFA, insurance service result, and reinsurance impact. Essential for internal and external financial reporting.

KPIs

KPI	Formula / Source	Chart	Source System	Refresh	Reg Ref
CSM Balance	CSM opening + movement - amortised	Waterfall	SAP IFRS17	Quarterly	IFRS 17.43-46
CSM Amortisation	CSM released to P&L this period	Bar	SAP IFRS17	Quarterly	IFRS 17.44(b)
Risk Adjustment (RA)	Non-financial risk adjustment movement	Bar	SAP IFRS17	Quarterly	IFRS 17.37, 17.84
Insurance Revenue	Revenue recognised (PAA/GMM/VFA by group)	Line + Bar	SAP IFRS17	Quarterly	IFRS 17.83-86
Insurance Service Expenses	Incurred claims + expenses recognised	Bar	SAP IFRS17	Quarterly	IFRS 17.87-88
Net Insurance Result	Insurance revenue - service expenses	Line	SAP IFRS17	Quarterly	IFRS 17.80
GWP vs NEP	Gross written vs net earned premium	Bar (paired)	SAP IFRS17	Quarterly	IFRS 17.55(a)
PAA Eligibility	% of groups qualifying for PAA	Pie	SAP IFRS17	Annual	IFRS 17.53-54
Group Aggregation	Groups by profitability (onerous/other)	Bar (stacked)	SAP IFRS17	Quarterly	IFRS 17.16-24
Reinsurance Impact	Reinsurance share of CSM, RA, revenue	Bar (stacked)	SAP + Sapiens	Quarterly	IFRS 17.62-65
Discount Rate Sensitivity	CSM sensitivity to -50bp/+50bp yield curve	Table	SAP IFRS17	Quarterly	IFRS 17.56-58
Transition Balances	Opening IFRS 17 equity adjustment by method	Waterfall	SAP IFRS17	Annual	IFRS 17.C1-C8

Data Flow Diagram

Dashboard 12: Regulatory Reporting Dashboard

ACORD: IN029
Business Question: Are all regulatory filings accurate and on time?
Owner: Head of Regulatory Reporting

Tracks the end-to-end regulatory reporting lifecycle across Solvency II QRTs, NAIC statutory statements, APRA GPS/LRS filings, and tax returns. Monitors filing calendar, submission status, data quality scores, and regulator queries.

KPIs

KPI	Formula / Source	Chart	Source System	Refresh	Reg Ref
Filings Due	Number of regulatory returns due this period	Count	AxiomSL	Monthly	—
Filings Submitted	Returns submitted on time	Count	AxiomSL	Monthly	—
On-Time Filing Rate	Submitted on time / due (%)	Gauge	AxiomSL	Monthly	Solvency II, NAIC, APRA
Data Quality Score	DQ pass rate across all regulatory data	Gauge + Line	AxiomSL + Informatica	Monthly	—
QRT Completion %	Solvency II QRT completeness (0-100%)	Gauge	AxiomSL	Quarterly	Solvency II QRT
NAIC Filing Status	Annual/quarterly statement status by state	Table (traffic-light)	AxiomSL	Quarterly	NAIC SSAP
APRA Filing Status	GPS 001 / LRS 750.0 / other status	Table (traffic-light)	AxiomSL	Quarterly	APRA GPS 001
Regulatory Queries	Open queries from regulators	Count (trend)	AxiomSL	Monthly	—
Query Resolution TAT	Avg days to respond to regulator query	Line	AxiomSL	Monthly	—
Tax Filing Status	GST / premium tax / income tax filing status	Table	AxiomSL + SAP	Quarterly	ATO / IRS / HMRC
Filing Calendar Adherence	Days ahead of deadline for each filing	Bar	AxiomSL	Monthly	—
Regulatory Change Impact	Number of regulatory changes affecting reporting	Count	AxiomSL	Quarterly	—

Data Flow Diagram

Dashboard 13: Data & Analytics Governance Dashboard

ACORD: IN033
Business Question: Can we trust our data for decision-making and reporting?
Owner: Chief Data Officer

Monitors data quality across all insurance data domains (policy, claims, customer, finance, risk), data cataloguing coverage, data lineage completeness, master data management health, and ML model performance. Drives the data governance operating model.

KPIs

KPI	Formula / Source	Chart	Source System	Refresh	Reg Ref
Overall DQ Score	Weighted avg of completeness, timeliness, accuracy, consistency	Gauge + Line	Informatica DQ	Weekly	BCBS 239; Solvency II Data
Completeness %	Mandatory fields populated correctly	Gauge	Informatica DQ	Weekly	—
Timeliness %	Data available within SLA	Gauge	Informatica DQ	Weekly	—
Accuracy %	Data values match authoritative source	Gauge	Informatica DQ	Weekly	—
Consistency %	Data consistent across source systems	Gauge	Informatica DQ	Weekly	—
DQ Domain Coverage	% of data domains with active DQ rules	Donut	Informatica DQ	Monthly	—
Data Catalog Coverage	Data assets catalogued in Colibra	Gauge	Colibra	Monthly	—
Data Lineage Coverage	Critical data elements with documented lineage	Gauge	Colibra + Informatica	Monthly	BCBS 239
Open DQ Issues	Data quality issues by severity	Bar (stacked)	Informatica DQ	Weekly	—
MDM Match Rate	Customer/policy master match rate	Gauge	Informatica MDM	Monthly	—
ML Model Performance	Avg MAE / R2 across deployed models	Gauge + Table	H2O.ai ML Ops	Monthly	—
DG Adoption	Business units with active data governance representation	Gauge	Colibra	Quarterly	—

Data Flow Diagram

Dashboard 14: Information Security Dashboard

ACORD: IN034
Business Question: Are we effectively protecting company and customer data?
Owner: Chief Information Security Officer

Provides a comprehensive view of the security posture including security incidents, vulnerability management, identity and access management, business continuity readiness, and third-party risk. Essential for board risk reporting and regulatory compliance (GDPR, CCPA, DORA).

KPIs

KPI	Formula / Source	Chart	Source System	Refresh	Reg Ref
Security Incidents	Incidents by type (phishing, malware, DDoS, insider)	Bar (stacked)	SIEM (Azure Sentinel)	Daily	GDPR Art 33; NIST 800-61
MTTR (Incidents)	Mean time to resolve security incidents (hours)	Line	SIEM (Azure Sentinel)	Monthly	—
Critical Vulnerabilities	CVSS > =9.0 unpatched	Count (trend)	Qualys / Tenable	Daily	NIST 800-53; CIS Controls
High Vulnerabilities	CVSS 7.0-8.9 unpatched	Count (trend)	Qualys / Tenable	Daily	—
Patch Compliance %	Systems patched within SLA	Gauge	Qualys + ServiceNow	Weekly	NIST 800-53 SI-2
Privileged Access Reviews	Reviews completed / due (%)	Gauge	CyberArk + ServiceNow	Monthly	SOX; NIST AC-6
Phishing Simulation Click Rate	Click-through rate on simulated phishing	Gauge	KnowBe4	Monthly	—
BCP Tests Completed	Tests passed / scheduled (%)	Gauge	ServiceNow BCM	Quarterly	Solvency II BCM; DORA
RPO/RTO Adherence	Systems meeting recovery point/time objectives	Gauge	ServiceNow BCM	Quarterly	Solvency II BCM
Third-Party Risk	Vendors with active security assessments	Count (bar)	ServiceNow VRM	Monthly	DORA; NIST SP 800-53
Data Breach Notifications	Breaches reported to regulator / affected parties	Count	SIEM + DPO Tracker	Monthly	GDPR Art 33-34
Security Awareness Training	Employees with up-to-date training	Gauge	KnowBe4	Monthly	NIST AT-2

Data Flow Diagram

Dashboard 15: Enterprise Services Dashboard

ACORD: IN035

Business Question: Are enterprise operations running efficiently?

Owner: Chief Operating Officer

Covers corporate functions: HR and payroll, financial accounting, procurement and vendor management, legal and contract management, and facilities. Provides a cost-centre view of enterprise operations with headcount trends, attrition, vendor performance, open legal cases, and facilities utilisation.

KPIs

KPI	Formula / Source	Chart	Source System	Refresh	Reg Ref
Headcount (FTE)	Total active employees	Count (trend)	Workday	Monthly	—
Attrition Rate	Departures / avg headcount	Line + Gauge	Workday	Monthly	—
Open Positions	Unfilled requisitions by department	Bar	Workday	Monthly	—
Time-to-Hire	Avg days from req open to offer accepted	Line	Workday	Monthly	—
Active Vendors	Vendors with active PO or contract	Count	SAP Procurement	Monthly	—
PO Value (YTD)	Total purchase order value placed YTD	Bar	SAP Procurement	Monthly	—
Vendor Scorecard	Avg vendor rating (quality, delivery, cost)	Gauge + Table	SAP Procurement	Quarterly	—
Legal Cases Open	Active litigation and regulatory matters	Count	ServiceNow Legal	Monthly	—
Contract Expiry Calendar	Contracts expiring within 6 months	Timeline table	ServiceNow Contracts	Monthly	—
Facilities Utilisation	% of office space occupied	Gauge	Facilities Mgmt System	Monthly	—
HR Cost per FTE	Total HR cost / headcount	Line	SAP GL	Quarterly	—
Finance Close TAT	Days to complete month-end close	Line	SAP GL	Monthly	—

Data Flow Diagram

Dashboard 16: IT & Digital Platform Operations Dashboard

ACORD: IN036
Business Question: Are our digital platforms reliable, performant, and cost-effective?
Owner: Chief Information Officer

Monitors IT operations across cloud infrastructure, API gateway performance, CI/CD pipeline health, testing coverage, service desk, and cloud cost management. Provides real-time and trend visibility into platform reliability, developer productivity, and IT financial management.

KPIs

KPI	Formula / Source	Chart	Source System	Refresh	Reg Ref
API Uptime	% of time API gateway is available	Gauge	Azure API Mgmt	Real-time	—
API Call Volume	API requests per minute by endpoint	Line (multi-series)	Azure API Mgmt	Real-time	—
API Latency (P50/P95/P99)	Response time in ms at percentiles	Line	Azure API Mgmt	Real-time	—
Deployment Frequency	Production deployments per week	Bar	Azure DevOps	Weekly	—
Deployment Success Rate	% of deployments without rollback	Gauge	Azure DevOps	Weekly	—
MTTR (Incidents)	Mean time to resolve P1/P2 incidents	Line	ServiceNow ITSM	Monthly	—
Service Desk Tickets	Tickets opened by category	Bar (stacked)	ServiceNow ITSM	Weekly	—
Ticket FCR Rate	First-contact resolution rate	Gauge	ServiceNow ITSM	Monthly	—
Cloud Cost (Monthly)	Monthly cloud infrastructure spend by provider	Bar (stacked)	Azure Cost Mgmt	Monthly	—
Cloud Cost per Transaction	Cloud cost / API transactions	Line	Azure Cost Mgmt	Monthly	—
Test Coverage	Code coverage % by criticality	Gauge	SonarQube + ADO	Monthly	—
SLA Adherence	IT services meeting published SLAs	Gauge	ServiceNow ITSM	Monthly	—
